mobile.cashless PIN

This innovation of mobile ticket machines will inspire you.

Top technology with great performance and compact dimensions

If on bus, train, ferry or cable car: the new Almex ticket vending machines can be attached to handrails or mounted on walls. It is very easily and flexibly integrated in almost all means of public transport. Modern designed and with customer friendly large displays support the machines all common cashless payment functions. Robust and with many practical functions impresses the new Almex vending machine series in three variants. The redundant pressure system also makes them extremely service-friendly and highly available.
