ALMEX 

ALMEX mobile.cashless

Our series of innovative mobile ticket vending machines with great performance and compact dimensions.

PUBLIC TRANSPORT

mobile.cashless PIN

Product description:

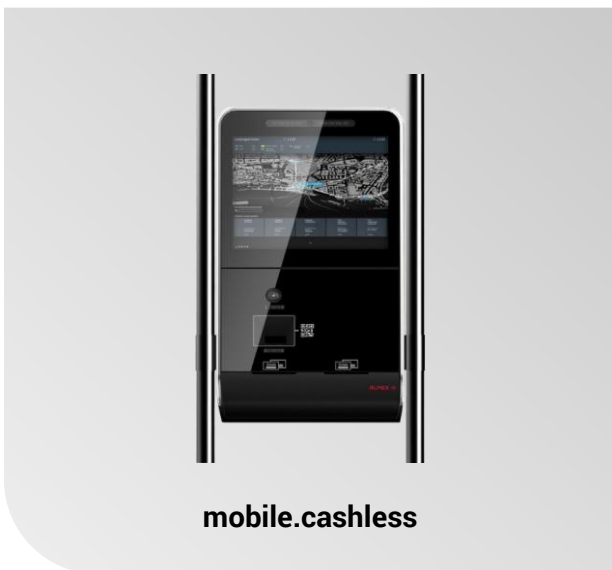

Small in size and great in performance – this is how the new ticket machines can be easily and flexibly integrated into public transport vehicles.

Whether it is used in a bus, train, ferry or cable car – the new machine series convinces with three modern design variants in terms of functionality and robustness. It's modern design with large display offers all common cashless payment functions and can be easily integrated into your means of transport.

Wall or pole-mounted, both are possible.

Thanks to the use of a redundant printer system, the mobile ticket vending machines are designed to low services and high reliability top class in form, function and performance.

Detailed technical information can be found on our website.
